Webcasts & Seminars

“...For all the scare tactics out there, what’s truly scary—truly risky—is the prospect of doing nothing.”¹

—Former President Barack Obama

Dear perianesthesia nurse colleagues,

The uncertainties and challenges of the COVID-19 pandemic impact everyone. It is important, now more than ever before, that we remain current in best practice and familiar with the practice implications of new evidence that touches our nursing specialty.

ASPAN’s mission is to be the premier expert in perianesthesia nursing care. We do this, in part, by providing perianesthesia nursing education that is relevant and timely. It is my honor to welcome you to our ASPAN 2021 Winter/Spring Webcast and Seminar season, which is packed with educational opportunities and excellent programs to engage and elevate the practice of every perianesthesia nurse. These offerings are developed to address the needs of those who are new to our practice setting as well as those who are experts. ASPAN strives to continue to offer programs that touch every learning style. With increased pandemic-related access to dynamic education, during a time when many conferences and education opportunities are limited due to pandemic-related physical distancing, ASPAN has been creative in providing these educational offerings. Our education can be attended virtually through pre-recorded sessions or, for those who prefer interactive education sessions, ASPAN offers live webcasts.

The global healthcare environment is constantly changing. Nurses’ roles are expanding. Remaining current in best practice is required to meet these challenges. However, this requires time and intention. ASPAN makes it easier to attend virtual evidence-based educational offerings, led by content experts, to provide an avenue for bedside clinicians, nurse leaders, or researchers to remain confident, competent, and current.

ASPAN is the global leader in perianesthesia nursing education. We set the bar with our Standards and Guidelines of what excellent perianesthesia nursing practice looks like. ASPAN is an ANCC accredited provider, and our educational offerings are rigorously created and vetted, assuring you the highest quality educational offerings and learning experience. Perianesthesia nurses are committed to providing patients the very best evidence-based care. This requires a dedication to lifelong learning.

Carl Friedrich Gauss, a famous German mathematician, shared “It is not knowledge, but the act of learning, not possession but the act of getting there, which grants the greatest enjoyment.”²

I challenge you to be active in pursuing the enjoyment of obtaining new perianesthesia nursing knowledge. Do not succumb to doing nothing in this time when our patients need us to care for them using the best and most current evidence. Mark your calendar now for the offerings you find interesting. Share these educational opportunities with your colleagues and component members and invite them to join you in expanding your perianesthesia knowledge and confidence. This confidence and peace of mind in knowing you are providing the best evidence-based perianesthesia nursing care contributes to well-being.

Check out the following pages to learn more about ASPAN’s programs this season. Don’t be left behind!

Sincerely,

Elizabeth Card MSN APRN FNP-BC CPAN CCRP FASPAN
ASPAN President 2020-2021

REGISTER EARLY!

- Online registration for **in-person seminars** will close at midnight ET on Wednesday of the week **prior** to the seminar date. Please call the National Office after this time for registration information.
- Registration is limited and taken on a first come, first served basis.
- A seminar will be closed when registration capacity is reached.
- Please note that registration cannot be accepted or processed unless accompanied by appropriate tuition payment. Please keep this in mind if applying to your facility for payment of the registration fee. Do so in a timely manner.
- Registering at the event is not recommended. You will not have access to your handouts, evaluations or certificate until your registration form is received and processed at the National Office. You are not guaranteed a seat or entrance to the seminar, unless you are preregistered. Handouts will not be provided to onsite registrants. You will be able to download and save the handout for two weeks following the seminar date.
- You will not have access to the evaluation and certificate until attendance is verified. Verification should occur the first business day after the seminar. Please check after 4 PM ET for availability.
- Please dress in layers to accommodate the room temperature.

HANDOUTS

Once you register, you will automatically receive a receipt and a confirmation via email. Both will direct you to ASPAN Learn. Handouts will be available three days prior through two weeks following the seminar. To access the handout, you must be a registered attendee and you must be logged into the ASPAN Learn website using the username and password connected to your account. If you do not know or do not have your username and password, please go to <https://www.aspan.org> and click the **Login** button at the top of the page. Please read and follow the prompts that apply to you. Wi-Fi will not be available at in-person seminar locations; it is your decision to download and save the handout to your device or to print the document before attending the seminar.

CASE PRESENTATIONS

Any case studies discussed during the seminar are fictional and do not reflect any real persons or events.

AUDIO OR VIDEO TAPING

Audio taping or video taping of any portion of an ASPAN program is **strictly prohibited**.
